

# FINAL PROJECT INSTRUCTIONS

---

- Conclude with:
  - An analysis of how the combination of the proposed techniques can complement each other to obtain better understanding of my materials
  - A description of how the proposed characterization methods are going to contribute to a specific project, or to a better understanding of the chosen material
- Deliverables:
  - A **PRESENTATION** (free format: power point, video, etc ) which is uploaded on Blackboard (Due date: last day of classes)
  - **Oral explanation/defense** of my proposal on class (last two days of classes)
