

Pitching Session

Pitching

- **Group member 1: 30 s**
- **Group member 2: 30 s**

OPTION 1: Separate presentations

OPTION 2: United presentation 30 s + 30 s

Poster Project

Themes

- Super-repellent coatings
- Clean energy conversion and storage
- Nanosensors
- Nanotechnology for analytics
- Thin films: nanocarbons or ALD

Choose **one specific topic** related to one of the themes.

Find **1-2** interesting scientific publications from years **2016-2017**.

Make your poster about them.

Poster Content

Choose **one specific topic** (related to themes).

Find **1-2 interesting scientific publications** from years 2016-2017.

Each poster must contain also measurement data (not just schematics).

**More figures, less text
→ better poster!**

Poster Content

In order to be able to really explain your poster in a poster session:

- You need to study much more than those 1-2 papers about the theme
 - We may ask also general, theoretical questions related to your poster's theme.

PAIR WORK: Poster

Choose the topic, **read literature**

Write on the topic: *mind map, bullet points etc. (no submission, just for you)*

Write the abstract

Keep the elevator pitch on the topic

- 30 s talk
- *best pitch gets awarded!*

Design and make the poster

- Make it in PowerPoint, submit as **pdf**

Present the poster in the poster sessions

- Each group member presents COSIO (18th October)

PAIR WORK: Deadlines

TASK	Deadline	Other Info
Abstract Submission	28th September	<i>One A4</i>
Elevator Pitch	11th October	<i>30 s, everyone keeps</i>
Poster Submission	15th October	<i>One A0, submission as pdf</i>
Poster presentation in COSIO	18th October	<i>Compulsory for all</i>

Conference Poster

A0, portrait ($\approx 84 \text{ cm} \times 118 \text{ cm}$):
Make in PowerPoint, submit as pdf

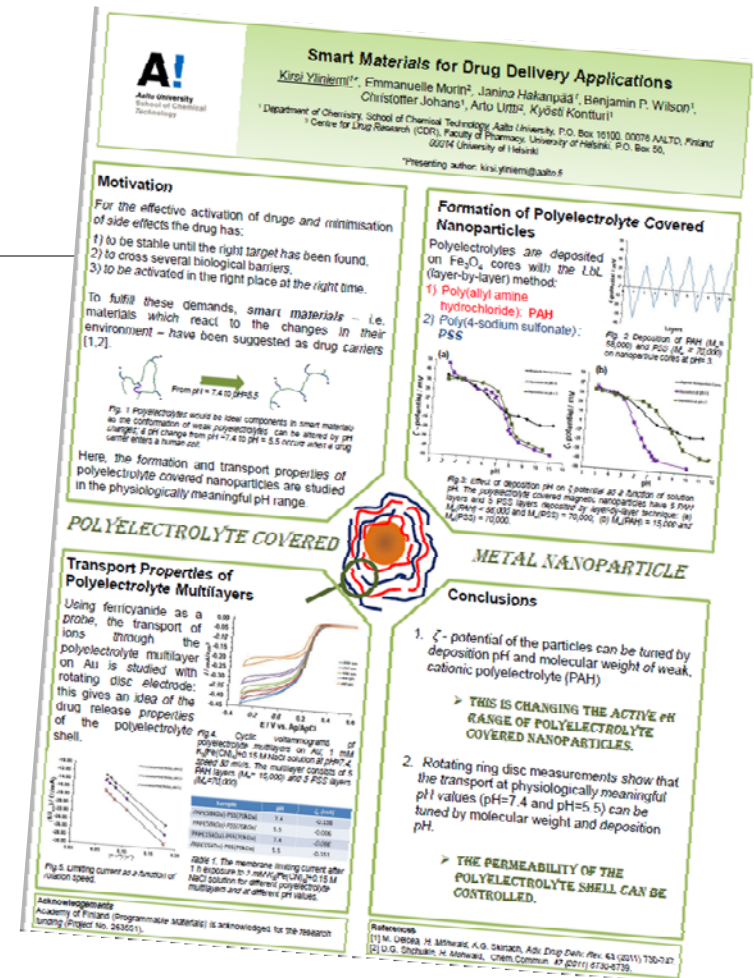

- **Large fonts**
 - main title > 60 pt; authors & sub-titles > 55 pt; body text > 40 pt
- **Hardly no text, more images**
 - You will explain your poster
 - Still, must have real content in writing too

➤ **Difficult balance**

VISUALITY: colours, images

AND

SCIENCE: content, references, story

Poster Session = COSIO

18th October, 12-14 and with companies 15-16

You will get 5 points of the poster presentation (individual grading)

- Both group members need to be able to explain the whole poster
- Start with appr. 90 s walk through
- Be ready to answer to questions already during the walk-through talk

And especially afterwards

- If no questions, plan some interesting
